

PPE0035CS
Satin finish

General description

- Bin with self-return lid to build in directly into the wall, of 5.4 L capacity, made entirely of AISI 304 stainless steel, with a satin finish in all visible parts. Fully welded, with solid corners, free of burrs and sharp areas.
- Appropriate for bathrooms and high traffic indoor public areas. Model suitable for collectivities.
- Modern, avant-garde and very robust design, which makes this recessed waste bin an anti-vandalism product with a long lifespan.
- Opens and closes thanks to a standard Mediclinics keyed cylinder lock
- Complies with the ADA regulations.

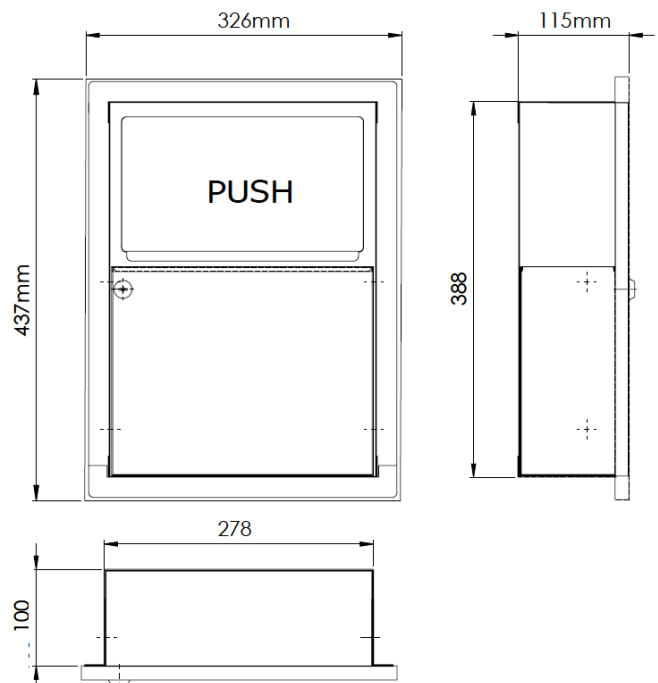

Components and materials

- **BODY:** made of AISI 304 stainless steel, 0.8 mm thick, with a satin finish in all visible parts.
- **DOOR:** made of AISI 304 stainless steel, 0.8 mm thick, satin finish, fixed to the body by means of a piano hinge. It opens and closes thanks to a standard Mediclinics keyed cylinder lock.
- **SELF-CLOSING LID:** manual operated operation with auto return, made of AISI 304 stainless steel, 0.8 mm thick, satin finish. It includes a spring for automatic return.
- **WASTE BIN:** made of stainless steel, 0.8 mm thick and 5.4 L capacity.

Technical specifications

Dimensions	437 x 326 x 115 mm
Wall opening	278 mm x 388 mm x 100 mm
Bin capacity	5.4 L
Door and self-closing lid thickness	1.2 mm
Frame and body thickness	0.8 mm
Waste bin thickness	0.8 mm
Net weight	4.7 Kg

Dimensions

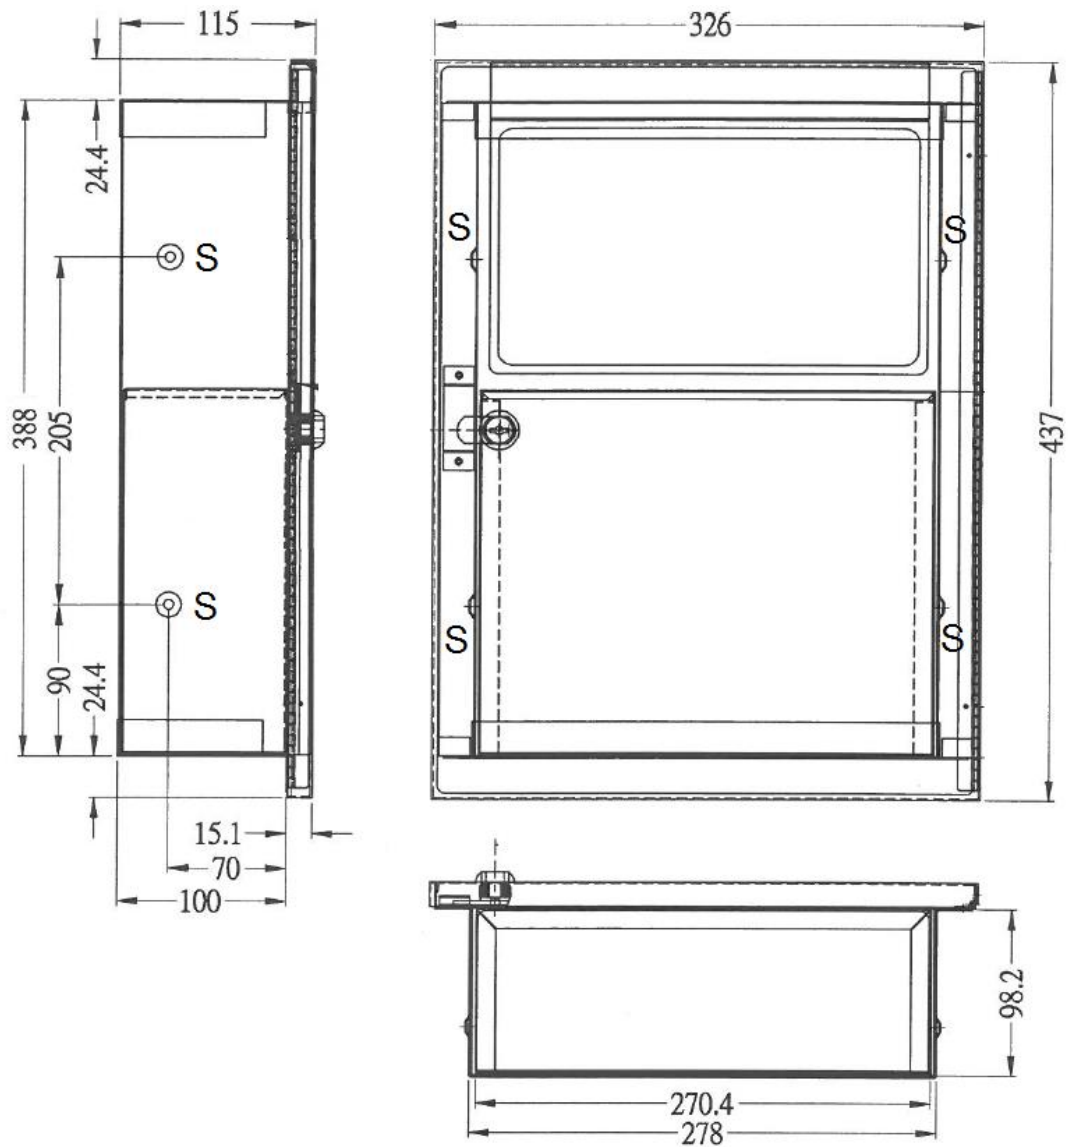

Dimensions: ± 4%

Operation

Push the lid until to have enough space to put the waste into the bin.

Mounting

Drill a hole in the wall with dimensions 278 mm (L) x 388 mm (H) x 100 mm (A). Place the unit inside the hole and fix it to the hole walls through the 4 holes (2 + 2) on the sides, using stainless steel screws and taking into account the distances of the points indicated by an "S" in the following figure:
